# About Us .....

SWP is a full service Civil Contracting, Civil Engineering and Professional Consulting Firm. We offer expertise in every aspect of construction.

We are a very unique 8(a) contractor, because our Principles and Employees are all well seasoned construction professionals who's experience was gained from decades of working for large and medium sized contracting and engineering companies. Collectively, the SWP team has over 100 years of contracting and engineering experience. All members started out in the field, learning the industry from the ground up, building knowledge and experience so that they could evolve into positions of greater responsibility. The SWP team has real world, actual experience building, administrating and managing projects from a simple \$1,000.00 pavement repair to a \$100 million dollar energy project.

Our personnel have been involved in transportation projects in one form or another since its inception. Our expertise is in general contracting services for clients that prefer contractor involvement. Alternative delivery methods is preferred especially those which involve pre-construction services such as CM At-Risk and Design-Build avenues.

SWP has continuously served our clients for the past nine years with honesty, integrity, and superior professionalism.

## NAICS Code(s):

541330, 541611, 541614, 541620, 236220, 237110, 237120, 237130, 237310, 237990, 238110, 238910, 238990, 213112, 213113

## Safety

At SWP, we consider our employees to be our most important asset, and the personal safety and health of each employee is of primary importance. SWP has developed and implemented a Safety Policy providing in-depth safety and health regulations, including a Hazard Communication Program and a job-specific hazard analysis (JHA), daily "toolbox" meetings, and ongoing employee safety training, both regulatory and activity specific.

## Quality Assurance

To keep all team leaders and members on track, SWP develops a Quality Assurance/Quality Control (QA/QC) plan specific to each project. An important element of our QC plan is the development of a tailored, project specific, checklist. Throughout the duration, the QA/QC plan is reviewed and expectations are verified. SWP's takes pride in delivering QA/QC documents that are comprehensive and accurate.
